

Robot Pro-Wrestling Times

My own robots dreams -everything robots-

Robot Pro-Wrestling Show was held at Hida-city, Gifu (Japan) in July 17th, 2016.

Robot pro-wrestling 'Dekinnoka!' (meaning, "Can you do it!?" in Japanese) was held at Funatsu-za in Gifu prefecture for the 27th times. This event was intended to pump up the Hida-kamioka High School, which was the regular participant of the robot pro-wrestling and also the prizewinner of ROBO-ONE contest.

Hida-kamioka High School is one of the few high school which has a robot club as a school activity. Right after our announcement of this robot pro-wrestling event launch in Hida, they soon formed a group with members of the high school graduates and their relatives, called 'Hida-kami Supporter' (meaning 'Hida-kamioka High School Spirits Supporter' in Japanese), wanting to let their local

people know more about their robot club.

They have also committed vigorously to promote this event to other local people in Hida-city. With their big support, the event was ended with a great success and attracted nearly 500 people in a day.

We had 4 robot pro-wrestling games on that day and they were live broadcast through YOUTUBE as well. This Robot pro-wrestling show 'Dekinnoka!' is planned to be held continuously to entertain more children in a world and let them know the fun and how amazing these robots technologies are willing to do in the future.

ROBOT ENTERTAINMENT SHOW ROBOT PRO-WRESTLING DEKINNOKA!

What is Robot Pro-Wrestling ‘Dekinnoka!’ ?

Robot pro-wrestling ‘Dekinnoka!’ is a robot entertaining show with humanoid robots. We have established this group in November 3rd, 2008, hoping to make an opportunity for children to become more interested in ‘Handmade’ through these exciting and cool handmade robot pro-wrestling show.

We have held this show for 27th times now and earned good reputations from the children mainly through local festivals or handmade craft events.

Robot pro-wrestling’s purpose is not a tournament game which is intended to decide the winner. It is the ENTERTAINMENT show.

Our show is not only held in Japan but in the U.S. as well!

We have focused and spend times more on its performance (design) and how we could maximize the surprises or enjoyments of our audience through the show. We believe that will lead children to lower the threshold and to make them wonder or become interested in these robot technologies.

Please go ahead and take a look at our Robot Entertainment Show! This Robot Pro-Wrestling is *THE ONLY* Robot Entertainment show in a world where you can experience the lots of fun and surprises of robot technologies!

Robot Pro-Wrestling ‘Dekinnoka’ Show will be held at Maker Faire Tokyo 2016!

You can see our show at Maker Faire Tokyo 2016!! Don’t miss this exciting show!!
